EDUCATION

Full-Stack Python Web Developer
Software University

03/2022 - 11/2023

Professional Modules   *Grade: 6.00*

- Proficient in Python and OOP, with expertise in data structures, algorithms, and Django for web applications. Skilled in Linux system administration and experienced in creating ReactJS SPAs with AWS deployment.

PERSONAL PROJECTS

Travel and Hike System (04/2023 - 07/2023)
- Engineered a user-friendly hike management application with Celery and Redis integration for task scheduling and data processing. Implemented custom user creation functionality, allowing users to easily sign up, upload images at Cloudinary platform, rate the application, and edit profiles. Administrators and guides have the ability to create hikes, sliders, view user ratings, and handle guide certifications and permissions. GitHub || Website

Product Management System (10/2023 - 12/2023)
- Developed a React application enabling users to manage their individual products with full CRUD functionality, providing a transparent overview of all users and their product counts for guests. Implemented comprehensive group management with CRUD operations, allowing users to personalize their profiles and ensured secure authentication through JWT. GitHub || Website

WORK EXPERIENCE

IT Support Specialist
Microinvest LTD

10/2023 - Present

Diligent software consultant and support professional with three months of experience in swiftly addressing software bugs, troubleshooting Windows OS issues, and analyzing databases. Proven ability in network setup and maintenance, router and firewall configurations, computer repair, and successful implementation of comprehensive communication systems for improved software product connectivity.

Operations Manager
Tandem 1991 LTD

10/2015 - 09/2023

I established a business ecosystem, configuring server infrastructure, network storage, internal networks and optimized the placement of production machines.

CERTIFICATES

Diploma

React JS (10/2023 - 12/2023)

PostgreSQL (09/2023 - 10/2023)

Python Web (05/2023 - 08/2023)

Linux System Administration (06/2023 - 08/2023)

JS Front-End (02/2023 - 04/2023)

HTML & CSS (01/2023 - 02/2023)

Python OOP (10/2023 - 12/2023)

Python Advanced (09/2023 - 10/2023)

Computer system and technology (10/2011 - 12/2015)
Bachelor's degree

TECHNICAL SKILLS

Programming Languages
Python, JavaScript, HTML & CSS

Frameworks
Django, Django REST, React JS

Databases
PostgreSQL, Redis, SQLite, MS SQL

Tools
PyCharm, WebStorm, VSCode, Docker, Git, Jira

SOFT SKILLS

Communication   Adaptability

Problem Solving   Creativity

Organizational skills   Teamwork

Attention to details
